

• NTools PP Slipcovers for NTools FDS radiators

The NTools PP slipcovers are intended to protect NTools FDS panels and radiators against dust and aerosol settlement when the radiators are not in use. Additionally, they protect radiators against damage caused by impact of metal particles and other small elements which may chip off during sheet metal works conducted in vicinity of the radiator.

The slipcovers are made from slick, waterproof orthalon (100% polyester) which is easy to clean and maintain. The slipcovers feature a sewn in string with a blocker, which enables comfortable application, forming and fastening on the radiator panel.

The APP offer features 4 sizes of NTools PP slipcovers intended for 4 different NTools FDS radiators:

- 1 **NTools PP 1** - Slipcover for the NTools FDS 1000 radiator (dimensions 49 x 21 x 28 cm)
- 2 **NTools PP 2** - Slipcover for the NTools FDS 2000 Plus radiator (dimensions 59 x 64 x 43 cm)
- 3 **NTools PP 3** - Slipcover for the NTools FDS 3300 (dimensions 61 x 73 x 48 cm)
- 4 **NTools PP 4** - Slipcover for the NTools FDS 4000 radiator (dimensions 74 x 45 x 43 cm)

String
with blocker

Features:

- strong orthalon material protects against mechanical damage
- the material's slick, waterproof surface is very easy to clean and maintain
- strong sewn in string with a blocker which facilitates application and fastening on the radiator panel

CAUTION!

The slipcover must not be put on a heated up radiator.
