

## • SP 69 Compressed Air and Freeze Spray

**APP No. 212069**

**APP SP 69 Spray** is a pressurized packaging that contains compressed air and propellant gas.

**APP SP 69 is a product 2 in 1 - that cleans and freezes.**

Position the container with the valve upwards to start blowing out at high pressure when removing dust and other contamination. The additional tube enables application at hard to reach places.

Position the container upside down (valve downwards) to reduce temperature down to  $-69^{\circ}\text{C}$  of elements during assembly or disassembly.

**APP SP 69 Spray finds application in:**

PRECISION  
ENGINEERING

ELECTRONIC

OPTICAL GLASS

ENGINEERING  
ELECTROMECHANICAL  
EQUIPMENT

**Caution! Do not shake the container before use.**
