• APP Pneumatic Cleaning Twister Gun

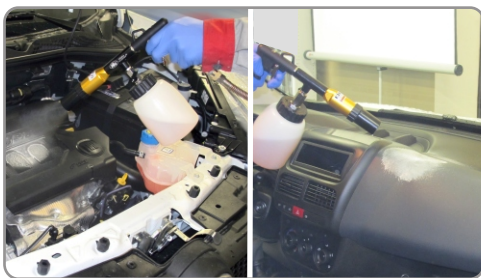

APP No. 231709

Special purpose device for effective cleaning of any contamination both inside and outside vehicles. **APP Twister Gun** is an innovative device provided with a specially designed nozzle fitted with a whirling aluminium internal core. Thanks to special seat the core protects the nozzle against internal wear and tear what enhances its life. Cleaning follows with the mist generated with pressured air. Adjustment enables to control the dispensed dose.

APP Twister Gun is a very efficient tool as it consumes minimum cleaning agents and moisten a cleaned surface insignificantly what ensures quick drying. This tool is purposed for everyday use in service garages, car wash and works together well with APP preparations e.g. Multi Cleaner and Inner Cleaner.

Perfect for cleaning of:

- Car body
- Engine chamber
- Wheel rims
- Air outlet
- Plastic elements
- Seats, upholstery, carpets, false ceiling and any surfaces in case of limited access.

Recommended preparations:

- **APP Inner Cleaner**
