

- **Professional Knife NTools CUT-X**
APP No. 250120

NTools CUT and NTools CUT-X knives are professional tools recommended for any works related to manufacture, storage, assembly or shop jobs. Knives enable cutting of materials of different thickness and elasticity, including soundproofing mats, leather, rubber, paper or thin plastic. Made from metal and aluminum, have rubber coated bodies what ensures goods grip and prevents accidental damage. NTools Cut-X has additionally a storage for replaceable blades (5 items). Both models are fitted with a lock that prevents accidental blade pulling out.

NTools CUT-X
