**NTools RDS 1N**  
Cobalt-Steel Reamer

**NTools RDS ON/RDS 1N** relate to professional milling tools (cutter) purposed for centre punching of car body welds. NTools RDS ON/RDS 1N have been made from cobalt steel, namely an alloy with addition of chromium, molybdenum, vanadium, tungsten and cobalt what ensure very good thermal and mechanical resistance.

Cobalt-steel reamers are purposed for body shops to use during dismantling of car body elements including mudguards, wheel arches etc..

**Advantages:**

- Special cutter for drilling of car body welds.
- Cobalt alloy fixed centrally blade- specially sharpened, eliminates unnecessary centre punching.
- Stable and strong construction enables work in difficult conditions with manual drill.
- Packed individually to facilitate storage.

Adapted to work with  
**NTS PW drill**  
(APP No.139610)

APP offer includes the following reamers:

APP No.	Product	Dia.	Length	Type	Pack.	
350490	NTools RDS ON	Cobalt-steel reamer	6 mm	65 mm	Cylindrical cutter	1 item.
350491	NTools RDS 1N	Cobalt-steel reamer	8 mm	75 mm	Cylindrical cutter	1 item.
