

- **NTools PDR System**
Paintless Dent Removal System

System purposed for shops and garages where mobility and precision is essential during repairs. Fully equipped trolley namely an innovative work place provides a complete Paintless Dent Removal system. The system offers the set of instruments for paintless repairs of internal dents– PDR, as well as tools and accessories for repair of external dents with use of glue- Glue Puller.

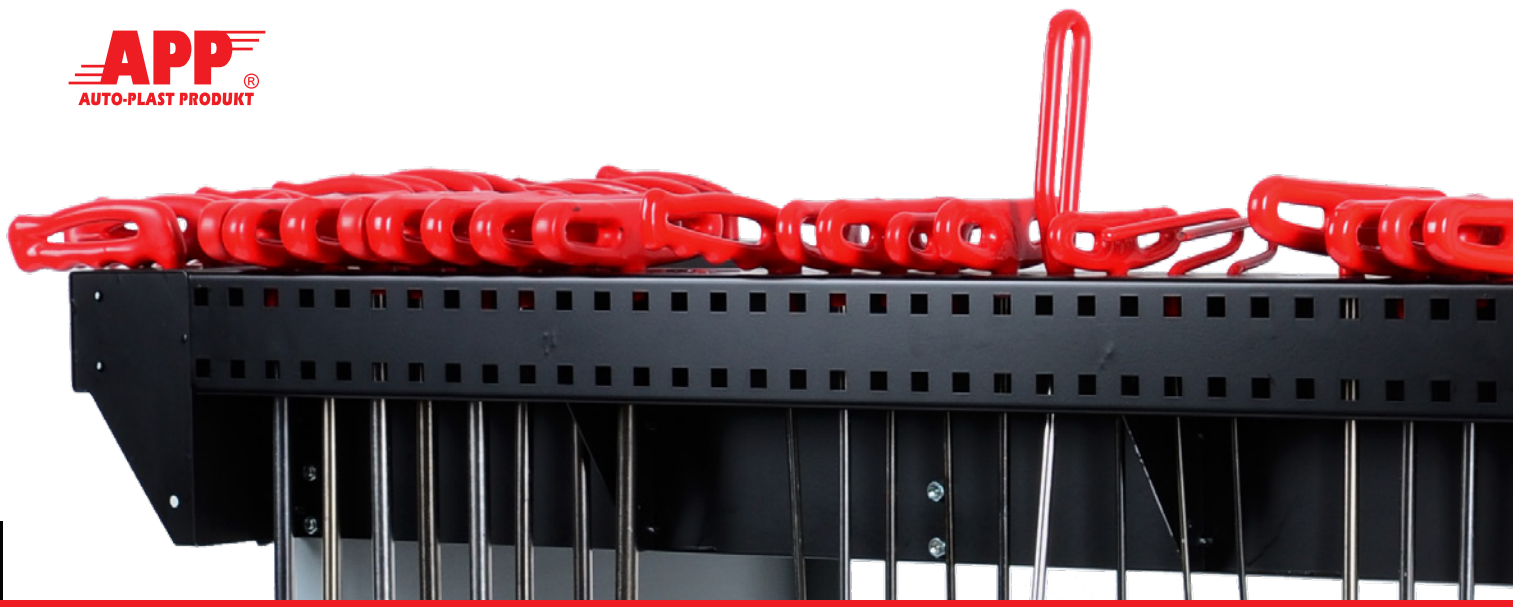

The trolley is additionally provided with 230V power system to enable connection of electrically powered devices namely a polisher or glue cartridge gun. Also the hanger is provided that is dedicated for shade lamp, polisher or glue gun.

Mobile work place ensures comfortable work, provides storage function, as well as quick access to required tools and accessories.

ADVANTAGES:

Mobility, easy access to all tools and accessories, 5 m long power cord, casters with brake.
