

NTools ADO 50

Electric and Pneumatic Device Dedicated Dust Extraction Tube Adapter

APP No. 600012ND

NTools ADO 50 adapter (a coupling) made from elastic rubber ca. 3mm thick for connection of dust extraction system to electric and pneumatic devices.

It includes five cylindrical sections sized from 50mm to 23mm that enable coupling any grinder (if provided with this option) to the external dust extraction system.

Three wide sections of adapter feature with inner thread of different size what enables fitting and coupling to tube or hose of different outer diameter.

Compatible with NTools branded tubes:

NTools WO 30
APP No. 600013

NTools WOD 30
APP No. 600018

NTools WOP 5
APP No. 600022

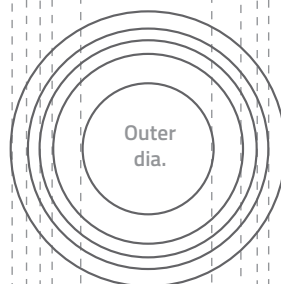

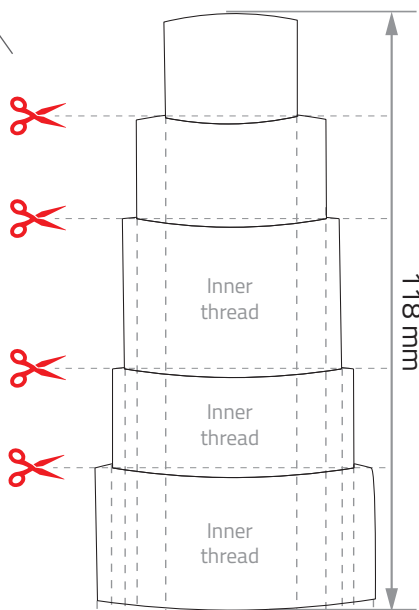

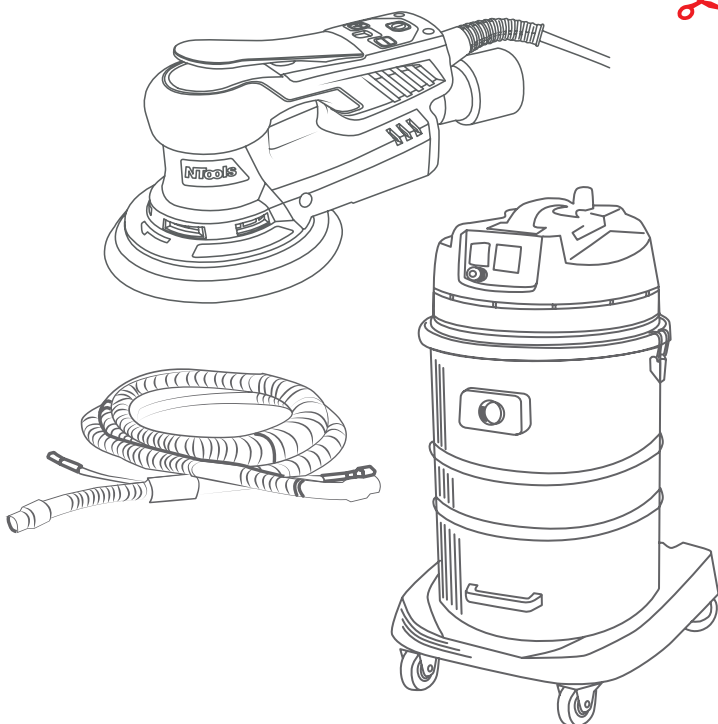

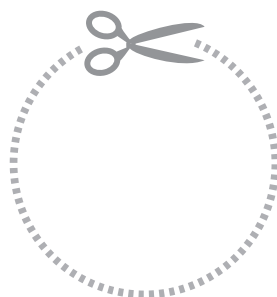

NTools WOE 5
APP No. 600023

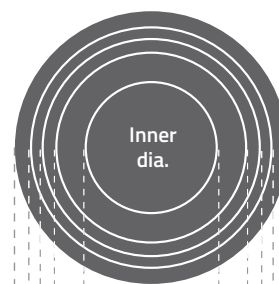

as well as Rupes, Festool and other.

Design and Use:

 Cut the adapter as required depending on used grinder and tube diameter

Outer dia.
 Ø 26 mm
 Ø 38 mm
 Ø 44 mm
 Ø 49 mm
 Ø 56 mm

Inner dia.
 Ø 23 mm
 Ø 32 mm
 Ø 34 mm
 Ø 38 mm
 Ø 50 mm
